Anthony uses a Dual Arm for his speech device. He loves that he can move it:
- to pull up to a table
- to exercise at the gym
- to transfer
Unsurpassed innovation, flexibility, style, and independence!

Move beyond the limits of static mounts!

Move it!
Independently move it to:
- transfer
- pull up to tables
- for driving or watching TV

Multi-task!
Position and secure multiple devices (pg 7)

Do More!
Trays optimize access for functional independence. Eat, work, read, and more! (pg 12 + 13)

Swap it!
Swiftly and easily change devices: iPad, speech device, laptop, phone, camera and more! (pg 12,13,14)

Experience Powerful, New Independence!
Move your mount with the touch of a switch with a Mount’n Mover Pow!r Hybrid System (pg 8 + 9)

“Brylee LOVES her new mount! It’s amazingly user friendly. The precise positioning capabilities are fantastic and the fact that her ideal position can be ‘locked in’, and easily returned to, is super helpful. Her speech device has given her a voice and the Mount’n Mover has made it easy for her to use it everywhere she goes! ”

Michelle, Brylee’s Mom
Get Started!

1. Choose your mount:
   - Independently move
   - Custom memory locks
   - Locking tilt

   Mount’n Movers - Pages 4-5

   • Customizable resistance to hold position
   • Quick Connect Receiver or Tilt Plate
   • Movable joints and tilt
   • Non-locking

   Easy Movers - Page 6

   NEW!

   • Change tilt (high or low resistance)
   • Swivel
   • Fold flat
   • Store to the side

   Simple Mounts - Page 7

   NEW!

   3 Options: Quick Connect, Small or Large Tray
   • Power joint - Shoulder or Tilt
   • Switch accessible
   • Programmable memory positions

   Pow!r Mounts - Pages 8-9

   NEW!

   2. Choose what you want to attach:
      Tray, speech device, camera, phone - pages 12-14

   3. Choose where you want to mount it:
      Wheelchair, table, floor stand - pages 15-18

   Tray, speech device, camera, phone - pages 12-14

   Wheelchair, table, floor stand - pages 15-18

Mount’n Mover
Tilt'n Turner / Single Arm / Dual Arm

The Next Generation has arrived!
It has a new look and added functionality!
- More precise fine tuning for eye gaze
- Twice the lock positions
- Increased forward tilt of the tilt plate (now 0° to 110°)
- New Link Cube
- Now in black!

Silver model below is no longer available

Memory Lock Positions
Adjustable memory lock settings allow customized, consistent, and repeatable positioning of devices. Each joint offers up to 24 possible lock positions

Tilt’n Turner
• 1 rotational joint
• 24 Lock tabs/possible lock positions
• Tilt adjustable/locking tilt
• Very compact
• Position in front of armrest

MO-TQ-H (high resistance hinge)
MO-TQ-L (low resistance hinge)

Tip: Add a second device to a Dual or Single Arm Mount’n Mover — create a Double Decker!

Single Arm
Full extension 7.5 to 10.5 inches from the Shoulder to the Wrist Joint
• 2 rotational joints
• 24 lock tabs per joint
• 576 possible lock positions
• Simple to move
• More compact than Dual Arm
• Locking tilt

M1-TQ-H (high resistance hinge)
M1-TQ-L (low resistance hinge)
**Dual Arm**

- 3 rotational joints
- 24 Lock tabs per joint
- 13,824 possible lock positions
- Most versatile
- Requires little reach

**Tip:**
We recommend the High Resistance Hinge for heavier devices (5 lbs. or greater)

Quick Release Plate allows for quick and easy attachment and removal for a wide variety of devices

Increased forward tilt - ideal for eye gaze (0° to 110°)

The Quick Connect Receiver (QCR) (page 11) can be attached to the Quick Release Plate (QCP)

Paddle unlocks the wrist joint so you can easily rotate a tray or device

Hoop unlocks both the elbow and shoulder joints simultaneously to make moving between operating positions easy

Unlock and Move Easily

Tip:
We recommend the High Resistance Hinge for heavier devices (5 lbs. or greater)

Increased forward tilt - ideal for eye gaze (0° to 110°)

The Quick Connect Receiver (QCR) (page 11) can be attached to the Quick Release Plate (QCP)

Paddle unlocks the wrist joint so you can easily rotate a tray or device

Hoop unlocks both the elbow and shoulder joints simultaneously to make moving between operating positions easy

Unlock and Move Easily

**Link Cube options:**
M2-TQ-H
(high resistance hinge)
M2-TQ-L
(low resistance hinge)

**Full extension 15 to 18 inches from the Shoulder to the Wrist Joint**
**Easy Mover**

**Dual Arm / Single Arm / Tilt'n Turner**

- **Increased forward tilt** - 0-140° - ideal for eye gaze (up to 0-180° depending on device)
- **Hinge** - available with either high or low resistance
- **Black finish**
- **Sleeker without paddle or hoop**
- **Customizable resistance at joints**

**NEW!**

**Quick Connect Release**

**New Quick Connect Receiver**

**With New Quick Connect!**

- **Receiver (QCR)**
- **Plate (QCP)** (sold separately)

**Dual Arm**

- **EM2-QC-H** (high resistance hinge)
- **EM2-QC-L** (low resistance hinge)

**Single Arm**

- **EM1-QC-H**
- **EM1-QC-L**

**Easy Mover Tilt'n Turner**

- **Attach device using Quick Release Plate**
- **Tilt and turn device**
- **EMT-H**
- **EMT-L**

**Also available with locking or non-locking Tilt Plate**

- **EM1-TP-H or (L)**
- **EM2-TP-H or (L)**
- **EM1-LTP-L or (H)**
- **EM2-LTP-L or (H)**

- **Customizable resistance at joints**
- **New Quick Connect Receiver is compatible with other mounts and devices**
- **Hinge on Easy Mover is available with either low or high resistance**
- **Joints can be adjusted from low to high resistance, low resistance requires less effort to move, high resistance requires more strength to move**
- **Tilt does not lock**
- **Weight limit 10 pounds**
Simple Mounts

Quick Connect / Small Tray / Large Tray

What makes them so great?

- Simple yet sturdy - holds up to 15 pounds
- Ideal for phones, remotes, iPads, tablets, speech devices, mouse, switches, eating, writing, and reading!
- Create a double-decker with a Dual or Single Arm system
- Securely attaches to wheelchairs or table with Mount’n Mover hardware (sold separately)

Quick Connect

New Quick Connect Receiver is compatible with other mounts and devices (see web for order number)

Simple Mount Small

3.5” x 7” x .25”
Tilts / Swivels (see web for order number)

Simple Mount Large

9” x 11.5” x .375”
Tilts / Swivels (see web for order number)

Trays include Lip Supports:
- Adhesive - backed
- Place them anywhere
- Small tray includes 1
- Large tray includes 2
- Additional sets of 6 (sold separately)

The Simple Mounts include a post attached to a variable angle hinge. The hinge is available in either a high or low resistance. Choose your post length: 8”, 12”, 18”, 24”, or 36”

Clear tray swivels 360°, lays horizontal, tilts 0 - 90° and folds down flat to the side!

Attaches to wheelchairs using Mount’n Mover Wheelchair Hardware (sold separately)

For tables, use a Table Clamp

Combine with a Dual or Single Arm to make a double decker! Or use two mounts! (see photo above)
**Pow!r Mount Hybrid Systems**

Introducing the first power Mount'n Mover for independent device positioning

**Mount’n Mover with Pow!r Shoulder**

Hybrid configuration: Mount’n Mover and Pow!r Joint

**Pow!r Shoulder**

**Benefits:**

- Move to the side:
  - For transfers
  - To pull up to a table or sink
  - To see to drive
  - To increase independence
  - Use from wheelchair, table, or bed
  - For safety and well-being

**Features:**

- Flexible positioning of a Mount’n Mover
- Single or Dual switch directional control
- Customizable target positions
- Rechargeable battery included
- Attach: Trays, speech devices, camera, laptop, or suction tube
- Built-in keypad for attendant
- Supports and moves up to 15 pounds

**NEW!**

- For transfers
- To pull up to a table or sink
- To see to drive
- To increase independence
- Use from wheelchair, table, or bed
- For safety and well-being

**Dual Arm**

**Pow!r Shoulder**

**Switch Jack**

**Battery Pack**

**PM-HBD-S-H** (high resistance hinge)

**PM-HBD-S-L** (low resistance hinge)
Mount’n Mover with Pow'r Tilt
Hybrid configuration: Mount’n Mover and Pow’r Joint

**NEW!**

12 x 12 Tray sold separately
* more options available

**Pow’r Tilt Benefits:**

**Move it to:**
- Use your device
- See where you are driving
- Avoid glare
- Visual access in a reclined position

**Single Switch A:**
- Toggle directions
- Joint moves while held
- Let up, it stops
- Next activation, other direction

**Single Switch B:**
- Two Target positions
- Activate switch and release
- Moves to a target position
- Activate and release
- Joint goes to second target position
- Click switch while moving it stops

**Two Switches:**
- Direction-specific
- Activate and hold Switch
- Moves one direction
- Stops when released
- Activate Switch B to go other way

12 x 12 Tray sold separately
* more options available

Tana's communication device used to stay in her backpack at school and only come out when she was in a classroom where it could be placed securely on a table. Now, it is always accessible for conversation and can be safely, easily and independently repositioned as needed - even in a standing position.

More trays and device plates available. See website: www.mountnmover.com
Quick Release Plate (QRP)
The Quick Release Plate serves as the easy attach-and-release component between the Mounting system and your device(s) of choice. Note: One Quick Release Plate comes with each Mount’n Mover (locking model). Order extra plates to make switching your devices quick and easy. QRP

The Universal Rotator lets you lock your device at any rotation!

Tilt Plate Adapter with Quick Connect Plate
Now available! An easy way to make a Mount’n Mover Quick Release Plate attach to a Rehadapt/Connect-it, Table or Floor Stand….in one step!

1. Insert the Tilt Plate Adapter with a Quick Connect Plate into the UDS

You have now made your Rehadapt Floor or Table Stand compatible with the Mount’n Mover Quick Release Plate!

Universal Rotator (UR)
An additional degree of freedom! Infinite angle locking is great for eye-gaze systems and iPads.

- Attaches to Quick Release Plate (p.7) or add a Quick Connect Plate to attach to an Easy Mover
- Attaches directly to most cameras with 1/4” and 3/8” screws (supplied)
- Attaches to tripod heads (not included)

After becoming frustrated trying to use a tripod and monopod, Suz was relieved to find out about the Mount’n Mover. She likes the flexibility it offers and that it allows the eye piece of the camera to be close to her eye. Attached to her power chair and tripod head, the camera goes with her everywhere and is always available to capture the perfect shot.

- P36  36”

Call us at 1-888-724-7002 (toll free) or 1-612-724-7002.
Angle Adjustment Plate
- Allows for rigid mounting for multiple angles, in increments of 7.5°
- Compatible with WB2 and all bracket mounting hardware.

Pair this with WB2 to more solidly adjust your post angle to vertical

WC-AAP

Solid Wheelchair Bracket
- Most rigid way to attach
- Simple and compact
- Has two mounting orientations

WB2

Round Clamp
- Clamps to round tubing when bolting is not an option
- Select from 1” or 7/8” size

WC-R1  1”
WC-R7/8  7/8”

Round Bridge Clamp
- Must be used in a pair with a AP2 or AP4
- Choose 1”, 7/8” or mixed pairs
- Eliminates tube-slip if clamped at right-angles

WC-R1B-set  1”
WC-R7/8B-set  7/8”

Adapter Plate 2
- Plate size: 3” x 1.75” x .25”
- Longer extension than WC-AP4

WC-AP
WC-AP2

Adapter Plate 4
- Plate size: 3.75” x 2.25” x .25”
- More compact than WC-AP2
- Allows for 5/16” or 8mm bolts

WC-AP4

Adapter Plate 5
- Plate size: 5.5” x 2.0” x .25”
- Longest/narrowest
- Allows for 5/16” or 8mm bolts

WC-AP5

Coved Spacers
- WC-Coved-7/8
- WC-Coved-1

Collar Clamps
- Additional round tubing option (see website for sizes)

WC-Collar

T-Nut
- Compatible with TDX and Quantum style slide tracks

WC-TN

L-Angled Extension Plate
- Can be used singly to offset mounting at 90°, or used in pairs to extend mounting from 2.25” to 4.5”
- Fully compatible with all wheelchair mounting hardware

WC-LAE

Easy access from bed!
Eval Kits

**Table Evaluation Kit**

- Comes with durable carrying case
- See website for content details

**Wheelchair Attachment Set**

- Additional kits are available. Contact us!

**Eval Kits:**

- Provide universal access - flexible positioning of different devices for many people to try
- Conduct evaluations - evaluate a person’s abilities to use different speech devices or software and input devices
- Evaluate mounting options - determine which Mount’n Mover is the best option for someone and what hardware they need
- Conduct trials - of iPads, speech devices, laptops and the Mount’n Mover
- Attach to a wheelchair - determine what hardware is needed to attach to a wheelchair
- Customize your Kit! Add other items at the time of purchase and the same discount applies

**Table Eval Kit**

Kit comes with Table Clamp, iPad/Tablet Tray, Tray with Lip, one 18” Post, and Dual Arm Mount’n Mover

**Wheelchair Attachment Set**

This 16 piece set includes an 18” Post, the Solid Wheelchair Bracket, multiple plates, and assorted mounting hardware. Will attach to most standard wheelchairs that have slide track or 7/8” or 1” tubing

**Custom Kits Available!**

If you can’t afford an Eval Kit, try our Meet the Mount’n Mover program
