* Tilt Hinge Resistance:

We recommend the High Resistance Hinge for heavier devices (5 lbs. [2.3 kg] or greater).

The High Resistance Hinge deters device angle adjustment when the tilt lever is unlocked. Both **H** and **L** hinges can be securely locked using the tilt lever lock.

Wheelchair Bracket

Overview

Wheelchair Mounting is divided into two stages:

3a Select Mounting Hardware

- Direct Wheelchair Attachment
- Offset Components
(Offset components are optional)

3b Select Wheelchair Bracket(s)

The Bracket is attached to the Mounting Hardware selected from 3a.

The Mount'n Mover Post is then inserted into the Wheelchair Bracket square clamp.
