GROOVES

✱ Use this lower attachment option when attaching for the **Touch Chat Express** or the **PRiO Mini**

QRP

QCR lower **✱**

① Quick Connect Receiver (QCR) and the Quick Release Plate (QRP) and hardware four screw X.

② Line up four holes in the QCR with corresponding holes in the QRP. **✱** Note the grooves in the QCR are facing out. The red lock on the QRP and the red flag on the QCR are facing up.

③ Feed the four 8-32 x 1/2" screws through the inside of the QRP and into the back of the QCR. The hole spacing in the QRP allows adjustment higher or lower depending on preference
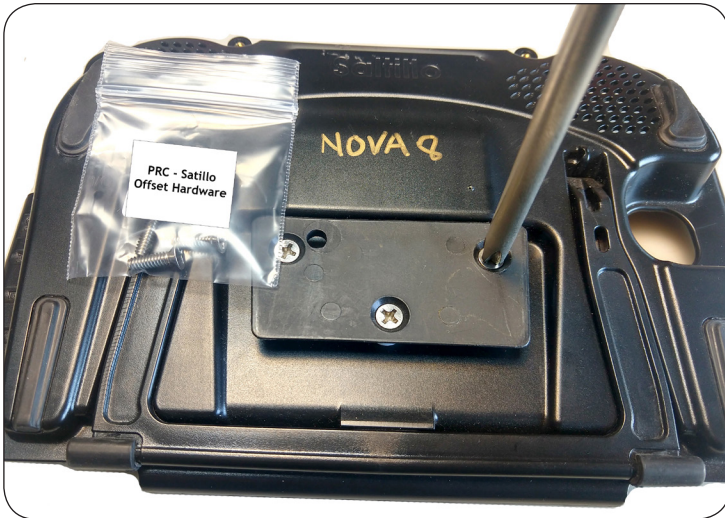

Nova Chat 8   Attachment Instructions   (Attaching to Easy Mover with Quick Connect Receiver)

① Remove the screws and plate from the back of the Nova Chat 8

② Use spacers and screws from hardware bag labeled "PRC-Saltillo Offset Hardware". Place spacers over threaded holes.

③ Place plate over the spacers and reattach to the back of the Nova Chat 8 with the longer screws included in the hardware bag. (6-32 x 1/2")

Close up view of the spacers underneath the attachment plate.

④ Nova Chat 8 mounted to the Easy Mover with Quick Connect.
